The Application of the Modified 0.5% rule for group I duty stations

3. At its 96th session, the International Civil Service Commission (ICSC) approved the application of the modified 0.5 per cent rule for group I duty stations that meet two conditions: (a) the currency of the duty station is neither any of the currencies of headquarters duty stations (that is, the US dollar, Swiss Franc, Euro, or British Pound), nor pegged, in a fixed or otherwise strict

manner, to them; and (b) the share of in-area expenditures incurred in non-local currencies by reference to the benchmark net take-home pay (NTP) based on the results of the latest cost-of-living survey is at least 15 per cent. For such duty stations, the monthly multiplier between reviews is obtained by keeping two separate shares of benchmark NTPs, expressed in US dollar and in local currency, stable, with a maximum fluctuation of plus or minus 0.5 per cent, with the share of the NTP expressed in local currency adjusted for changes in the exchange rates only, whereas the share of NTP expressed in US dollars is insulated from local currency fluctuations. The share of the NTP expressed in US dollars is obtained as the share of in-area expenditures, incurred in non-local currencies, of the benchmark NTP at the time of survey implementation.

4. In accordance with the provision of the application of the modified 0.5 per cent rule for group I duty stations, as outlined above, the post adjustment multipliers applicable for the following group I duty stations, with effect from 1 October 2024, are given in Table 2.

6. Cost-of-living survey results did not trigger a change in the multiplier for **Albania, Brazil, Colombia and Djibouti.**

7. Based on the most recent cost-of-living survey results, the revised applicable rental subsidy thresholds for the duty stations listed in Table 4 below, are effective 1 October 2024.

8. The waiver of the **40 per cent** of rent limit on rental subsidy is **no longer applicable** for **Brazil, Mongolia, Russian Federation, Rwanda and Sri Lanka**, effective 1 October 2024.

Duty Stations with Personal Transitional Allowance (PTA)

9. Under the modified operational rules as described in the document *ICSC/CIRCGEN/04/2024* published on 5 July 2024, the PTA is calculated every month to ensure that the Net Take-Home Pay (NTP) for existing staff does not decrease but also does not exceed its initial maximum setting in the first month of the new application. The first six months after the implementation of survey results, the PTA will bridge the full gap between the new benchmark NTP and the prevailing NTP at that time. Following this period, the NTP for existing staff will be gradually reduced by 3% every four months, with the PTA adjusted monthly to reflect the difference between the NTP for existing staff and the newcomers. This monthly adjustment process will continue until the NTP for existing staff will coincide with the statutory one. The PTA became applicable for **Sri Lanka** due to low survey results implemented in October 2024. Table 5 provides a summary of all PTAs in effect as of 1 October 2024.

10. It should be noted that the PTA is supposed to be paid **in addition to** the regular post adjustment multiplier and thus should be taken into account in determining all other entitlements ordinarily affected by post adjustment, such as rental subsidy, settling-in grant, spousal allowance etc. PTA should be paid only to staff on post on or before its starting month. Except for the PTAs that began before March 2023, when the Covid-19 special measure was in place, any staff joining the duty station after the PTA starting month is not eligible for the currently existing PTA unless the PTA is revised as a result of the implementation of another survey, in which case staff on post after the PTA start date can become eligible.

Table 5. Summary of Personal Transitional Allowances (PTAs) as of 1 October 2024

Zimbabwe	0.4	1 February 2020	1 March 2023	1 December 2024

**PTA revised on a monthly basis to maintain the NTP until the next revision date*

11. The gap closure measure is completed for the **Russian Federation**. Therefore, the personal transitional allowance (PTA) is no longer applicable for this duty station effective 1 October 2024.

12. Due to sustained substantial inflation over the past six- and twelve-month periods, the one-month rule (OMR) is applicable for **Argentina, Lebanon, Sudan** and **Türkiye**. Under this rule, the post adjustment multipliers of **these duty stations** are reviewed on a monthly basis during the period of substantial inflation. Based on the application of the one-month rule, the applicable post adjustment multipliers for these duty stations, effective 1 October 2024, are listed in Table 6.
